| Total number of workers  | 13,930                     | 13,824                       | 12,178                    | 13,167                 |
| Mean dose<br>(mSv)   | 0.1                        | 0.1                          | 0.1                       | 0.1                    |
| Max dose<br>(mSv)  | 2.8                        | 4.1                          | 2.9                       | 2.8                    |
| Number of projects   | 105                        | 110                          | 105                       | 86                     |

## [Notes to the table]

- · For example, the value "125" in the dose row "1<Dose ≤2" in the period column "July-September 2017" indicates that there were 125 workers engaged in decontamination and related work in the three months from July to September 2017 who had a dose higher than 1 mSv and equal to or lower than 2 mSv.
- This table shows the dose distribution per quarter, collected as of 17 October 2018 for the past one year.
- The data are given as a flash report of the dose distribution among workers engaged in decontamination and related work in the second quarter (April-June of 2018) as well as additional data for the period from the third quarter of 2017 to the first quarter of 2018 (July 2017 to March 2018) which were added after the flash data collection day (23 July 2018)
