[Notes to the table]

- For example, the value "240" in the dose row "1<Dose ≤2" in the period column "October–December 2016" indicates that there were 240 workers engaged in decontamination and related work in the three months from October to December 2016 who had a dose higher than 1 mSv and equal to or lower than 2 mSv.
- This table shows the dose distribution per quarter, collected as of 9 January 2018 for the past one year.
- The data are given as a flash report of the dose distribution among workers engaged in decontamination and related work in the third quarter (July–September of 2017) as well as additional data for the period from the fourth quarter of 2016 to the second quarter of 2017 (April 2017 to June 2017) which were added after the flash data collection day (9 January 2018)
