[Notes to the table]

- For example, the value "190" in the dose row "1<Dose ≤2" in the period column "October–December 2018" indicates that there were 190 workers engaged in decontamination and related work in the three months from October to December 2018 who had a dose higher than 1 mSv and equal to or lower than 2 mSv.
- This table shows the dose distribution per quarter, collected as of 15 January 2020 for the past one year.
- The data are given as a flash report of the dose distribution among workers engaged in decontamination and related work in the third quarter (July–September of 2019) as well as additional data for the period from the fourth quarter of 2018 to the second quarter of 2019 (October 2018 to June 2019) which were added after the flash data collection day (14 October 2019)
