Number of projects	103	108	102	99

[Notes to the table]

- For example, the value "49" in the dose row "1<Dose ≤2" in the period column "April–June 2020" indicates that there were 49 workers engaged in decontamination and related work in the three months from April to June 2020 who had a dose higher than 1 mSv and equal to or lower than 2 mSv.
- This table shows the dose distribution per quarter, collected as of 12 July 2021 for the past one year.
- The data are given as a flash report of the dose distribution among workers engaged in decontamination and related work in the first quarter (January–March of 2021) as well as additional data for the period from the second quarter of 2020 to the fourth quarter of 2020 (April 2020 to December 2020) which were added after the flash data collection day (19 April 2021)
